

## CONCRETE MOBILE BATCHING MACHINE RM800

Concrete Mobile Batching Machine (Reversible Drum Mixer) offered by us is manufactured using latest technology for ensuring excellent performance. The array of Concrete Mobile Batching Machine we manufacture is used extensively in construction industry for mixing concrete. Our Concrete Mobile Batching Machine is appreciated for its high durability, excellent performance and various other notes features.

### Special Attributes:

- Can mix aggregate up to 80mm
- Mix in forward rotation
- Discharge in reverse rotation
- Excellent performance
- Long performing life
- Sturdy construction

### Components:

- Pump for feeding water tank
- Water tank with measuring scale
- Digital display of weights
- Heavy duty hydraulic system
- Centralized lubrication system
- Handle for unloading in case of power failure
- Atomized water and admixture dosing system
- Four wheels for easy mobility

### Application Area:

- Construction industry

### Specifications:

Description	Concrete Mobile Mini Batching Machine RM800	Concrete Mobile Mini Batching Machine RM1050	Concrete Mobile Mini Batching Machine RM1400
<b>Model</b>	RM 800E	RM 1050	RM 1400
<b>Drum Capacity (Max)</b>	0.6 Cu.Mtr (21 CFT) per batch	0.75 Cu.Mtr	0.9 Cu.Mtr
<b>Machine Output Capacity (Max):</b>	12 Cu.mtr / hour	15 Cu.mtr / hour	20 Cu.mtr / hour
<b>Hopper Capacity Three Bin</b>	800 LTRS	1050 LTRS	1050 LTRS
<b>Hopper Lifting Capacity</b>	1250 KG Maximum weight of Cement, Sand & Metal should be 1250 Kg	1800 KG Maximum weight of Cement, Sand & Metal should be 1800 Kg	2400 KG Maximum weight of Cement, Sand & Metal should be 2400 Kg
<b>Water Tank Inbuilt Water Tank</b>	160 Liters	250 Liters	275 Liters
<b>Motor</b>	10 HP, 3 Phase Electrical Motor	15 HP, 3 Phase Electrical Motor	20 HP, 3 Phase Electrical Motor
